

BPRG FFA Parties meeting

Opening Remarks

Set the stage: why Building RGs are important

- RGs/remedies must be protective for intended reuse
- Potentially impacted buildings slated for residential reuse, need to provide assurance that structures suitable for occupancy
- FYR evaluated RGs for continued protectiveness
- BPRG is EPA's method for evaluating building radiation risk
- Navy proposed RESRAD's continued use as basis for RGs
- EPA considers other methods through consultation with HQ
